300 x 300 Installation Templates

Tactile Systems Australia 300mm x 300mm Installation templates are an easy to use system that locks together to extend to cover the width of travel.

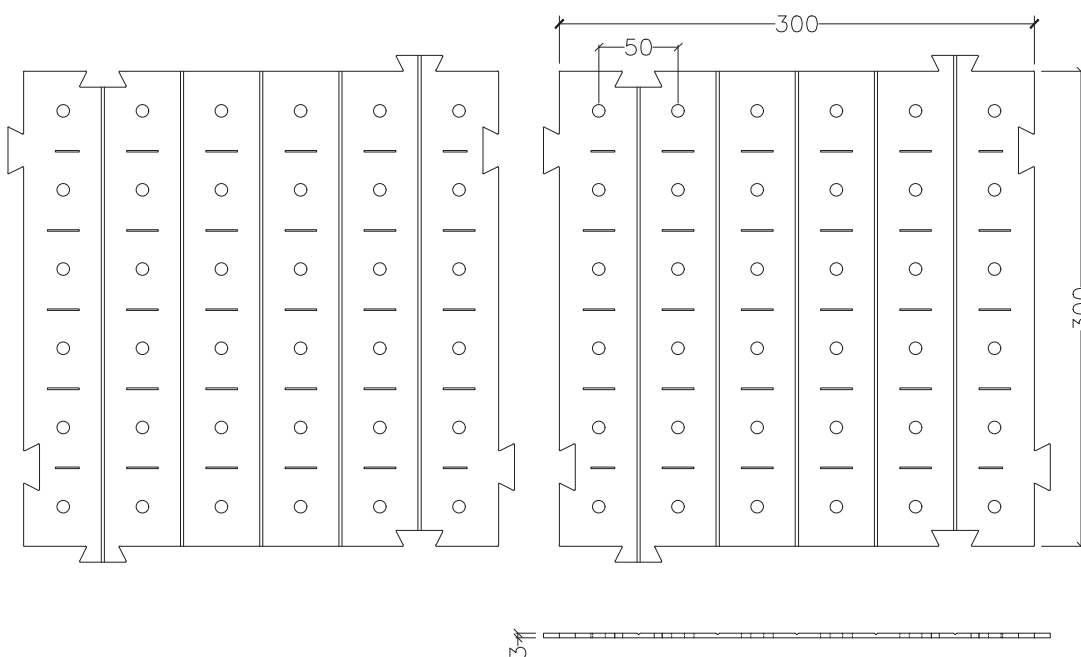

The holes are set out to meet the AS/NZ 1428.4.1 2009 Australian Standards, using an 8mm Masonry drill bit, High speed Timber drill bit.

Manufactured from ABS Plastic which was specifically chosen to withstand the harsh Australian weather conditions and built environment.
