

Car Park Fixtures

TSA Bike Rack - 5 Bay Surface Mount – Galvanised & Stainless Steel

Tactile Systems Australia range of surface mount bike racks are a proven design suitable for multiple bike parking solutions. Higher density bicycle parking is available as the BR-5B series can be accessed from both sides. This range of bicycle parking is available in either galvanised or stainless steel construction.

- Single or double side access
- Fully welded construction – supplied fully assembled and ready to use
- High grade anchor bolts ensure secure fixing via pre-drilled mounting holes
- Stainless steel or hot dip galvanised versions
- Capacity: Up to 7 Bikes
 - Allows for 5 in bays and 2 on outer ends
 - Single side access: 5 on one side (+ 1 on each end)
 - Double side access: also possible to increase capacity
