

Car Park Fixtures

Wall Mounted Single Bike Rack

Tactile Systems Australia wall mount bike rack is an effective method for multiple bike storage in areas short on space such as basement car parks in hotels, residential apartments and schools. Wall mount bike racks are fixed to the wall to hang a bicycle vertically without causing any damage to the bike.

- Single bike storage each unit
- Utilises Vertical Space - keep bikes safe off the ground
- Install ready – fully assembled ready to go
- Indoor and outdoor use
- Powder coat finish for excellent durability
- 4 fixing holes for secure mounting
