

## Car Park Fixtures Convex Safety Mirrors

**POST BRACKET**

**WALL BRACKET**

**Tactile Systems Australia** Convex safety mirrors are suitable for a wide range of applications around the workplace or carpark facilities.

They are manufactured from high grade acrylic for outdoor use to provide crystal clear viewing. They increase workplace and facility safety and help to eliminate blind spots.

Weather proof construction, along with heavy duty mounting brackets make them suitable for even the most demanding applications.
