Tactile Systems Australia Warning Discrete TGSI Polyurethane range are the ideal cost effective product for a wide range of applications. They feature a P5 slip resistance rating – as tested by a NATA Approved Laboratory.

Manufactured from UV stabilised Thermoplastic Polyurethane Elastomer, which was specifically chosen to withstand the harsh Australian weather conditions and built environment.

TSA's range of Polyurethane TGSI have been used in a huge variety of applications such as train stations, office buildings, airports, bus stops and shopping centres.

Specifically designed 26mm stem to suit bitumen install.
Stem design gives superior holding resistance as well as ensuring long install service.
