COLOUR VARIATIONS

Tactile Systems Australia Warning Composite Integrated TGSi w/ Polyurethane insert are made from 316 marine grade solid stainless steel and high grade Polyurethane insert, the truncated cones are welded to 3mm thick 300mm x 600mm 316 marine grade stainless panels.

Their robust construction, longevity and elegant aesthetics make them ideal for busy high traffic environments, whilst adding a sense of class to any design.

Tactile Systems Australia products have been independently tested for slip resistance. Please contact us for a copy of the report. This product features a P4 slip resistance rating – as tested by a NATA Approved Laboratory.
