

Accessories Install Hammer - Replaceable Rubber Heads

Tactile Systems Install Hammer

- Specifically sourced by Tactile Systems for use when installing pressure fit tactiles
- Protects the surface of the tactile from damage caused by steel hammers
- Sufficient weight for effective install whilst being light enough for repeated use
- Hard rubber heads will not mark or damage tactile indicators
- Fibreglass construction and integrated rubber handle reduces vibration
- Replaceable heads to give extended product life

Head Weight: 600g
 Head size: 40mm
 Length: 350mm
 Total weight: 0.618kg
