## COLOUR VARIATIONS

**Tactile Systems Australia** Directional Discrete TGSI Stainless Steel Range are made from 316 marine grade solid stainless steel.

Their robust construction, longevity and elegant aesthetics made them ideal for busy high traffic environments, whilst adding a sense of class to any design.

Tactile Systems Australia products have been independently tested for slip resistance. Please contact us for a copy of the report. This product features a P5 slip resistance rating – as tested by a NATA Approved Laboratory.
