Tactile Systems Australia Warning Integrated TGSi Stainless Steel Range are made from 316 marine grade solid stainless steel. The truncated cones are welded to 3mm thick 300mm x 300mm 316 marine grade stainless panels.

Their robust construction, longevity and elegant aesthetics made them ideal for busy high traffic environments, whilst adding a sense of class to any design.

Tactile Systems Australia products have been independently tested for slip resistance. Please contact us for a copy of the report. This product features a P5 slip resistance rating – as tested by a NATA Approved Laboratory.
