

Warning Composite Integrated TGSI Stainless Steel with Carborundum Infill

Stainless Steel

Warning Integrated TGSI

COLOUR VARIATIONS

Tactile Systems Australia Warning Composite Integrated TGSI w/ Carborundum infill are made from 316 marine grade solid stainless steel and high grade Carborundum infill, the truncated cones are welded to 3mm thick 300mm x 600mm 316 marine grade stainless panels.

Their robust construction, longevity and elegant aesthetics make them ideal for busy high traffic environments, whilst adding a sense of class to any design.

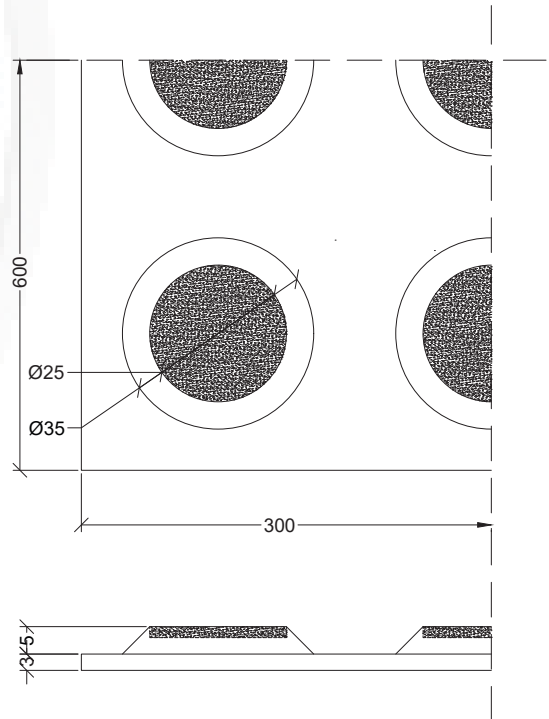

Tactile Systems Australia products have been independently tested for slip resistance. Please contact us for a copy of the report. This product features a P5 slip resistance rating – as tested by a NATA Approved Laboratory.
